

ADHITHYAN

Computer Application Student

Kaypeeyes College of Arts and Sciences | Bachelor of Computer
Application (2024–2027)

About Me

I'm a dedicated Computer Application student with a passion for technology and problem-solving. As someone who values responsibility and organization, I bring a structured approach to everything I do.

Currently pursuing my Bachelor's degree, I'm eager to bridge the gap between academic learning and real-world application. I'm actively seeking my first professional work experience to contribute to meaningful projects while developing my skills in a collaborative environment.

Educational Background

1

2024 - 2027

Bachelor of Computer Application

Kaypeeyes College of Arts and Sciences

Affiliated with Barathiyar University

2

Current Focus

Building strong foundations in programming, software development, and computer systems while maintaining excellent academic performance.

Communication Skills

English

Fluent in both written and spoken English, enabling effective communication in professional and academic settings.

Tamil

Native speaker with strong cultural understanding, valuable for diverse team environments and local market insights.

Technical Expertise

Building a solid foundation in programming languages and web technologies essential for modern software development.

Java

Object-oriented programming fundamentals, data structures, and application development principles.

C & C++

System-level programming, memory management, and algorithm implementation skills.

HTML

Web structure and markup language proficiency for creating well-structured web content.

Community Involvement

Velveral Foods Inc.

Volunteer Experience

Actively participated in community food collection drives, helping distribute nutritious meals to students in low-income schools. This experience taught me the importance of giving back to the community and working collaboratively toward meaningful social impact.

Through this volunteer work, I developed strong teamwork skills and gained valuable experience in project coordination and community outreach.

Thank You

Ready to bring fresh perspectives and dedication to your team

I'm eager to apply my technical knowledge and enthusiasm for learning in a dynamic internship role. Let's build something amazing together!
